GUN OWNERSHIP

Depending on whose research you believe (gun control activists' or Second Amendment supporters') Americans use handguns 1,500,000 to 2,500,000 times per year in self defense. While firearm ownership is up, studies by the National Safety Council confirm that accidental deaths by firearms are the lowest since records started being kept 100 years ago.

Furthermore, private citizens are less likely to mistake innocent persons for criminals than police are. Keeping law abiding citizens from owning handguns is wrong and violates your Constitutional rights.

Before you decide to give away your Second Amendment rights, arm yourself with knowledge. **Visit www.dfgopac.org for more information.**
